

Farm Hill Utilities, Inc.

NOTICE OF RATE INCREASE

Dear Farm Hill Utilities Members,

This letter is to serve as a notice to inform you of the rate increase for your water effective March 21, 2024, which will be reflected on your May 2024 bill.

Farm Hill Utilities has not had a rate increase in 16 years. Unfortunately, operating costs have increased due to the price of supplies and materials required in order to provide you with an abundance of safe drinking water. The Board of Directors are committed to managing those costs.

Attached, please find the new rate structure.

Thank you,

Board of Directors
